Electrifying success.

Get ready to meet the fully electric [eSprinter](#)! The [eSprinter](#) van brings locally emission-free driving to elevate your fleet’s sustainability. Built with the same versatility, load capacity and cutting-edge technology as its fuel-powered counterpart, the [eSprinter](#) is designed to adapt, whether as a mobile workshop or a spacious delivery van.

A business powerhouse.

The all-electric eSprinter is our largest, most capable van yet, built to tackle the toughest jobs and keep your business moving forward. With a robust set of features and a choice between two battery sizes (113kWh or 81kWh), this van is designed to power your business toward success. The eSprinter is here to work as hard as you do.

Connected technologies.

The MBUX system, with its high-resolution 10.25" touchscreen, offers eSprinter-specific settings, like charging and navigation, can now be managed through the instrument cluster, touchscreen or voice assistant. MBUX isn't just a multimedia system, it empowers you with seamless control, enhanced connectivity and a future-forward driving experience that sets new standards.

The future has arrived.

Save time with fast, hard-disc navigation featuring flexible control via touch or voice. This intelligent system guides you reliably, using both local data and real-time online updates to ensure you reach your destination efficiently.

The future looks electric.

The eSprinter combines striking design with a practical purpose, making it ideal for your business needs. With a sleek, aerodynamic body and distinctive grille featuring the iconic Mercedes-Benz star, the eSprinter showcases a modern image of success on the road.

Built for efficiency

Step inside the eSprinter and experience an interior tailored for both comfort and productivity. With ergonomic seating and high-quality materials, every detail is crafted to enhance driver satisfaction, even on the longest routes.

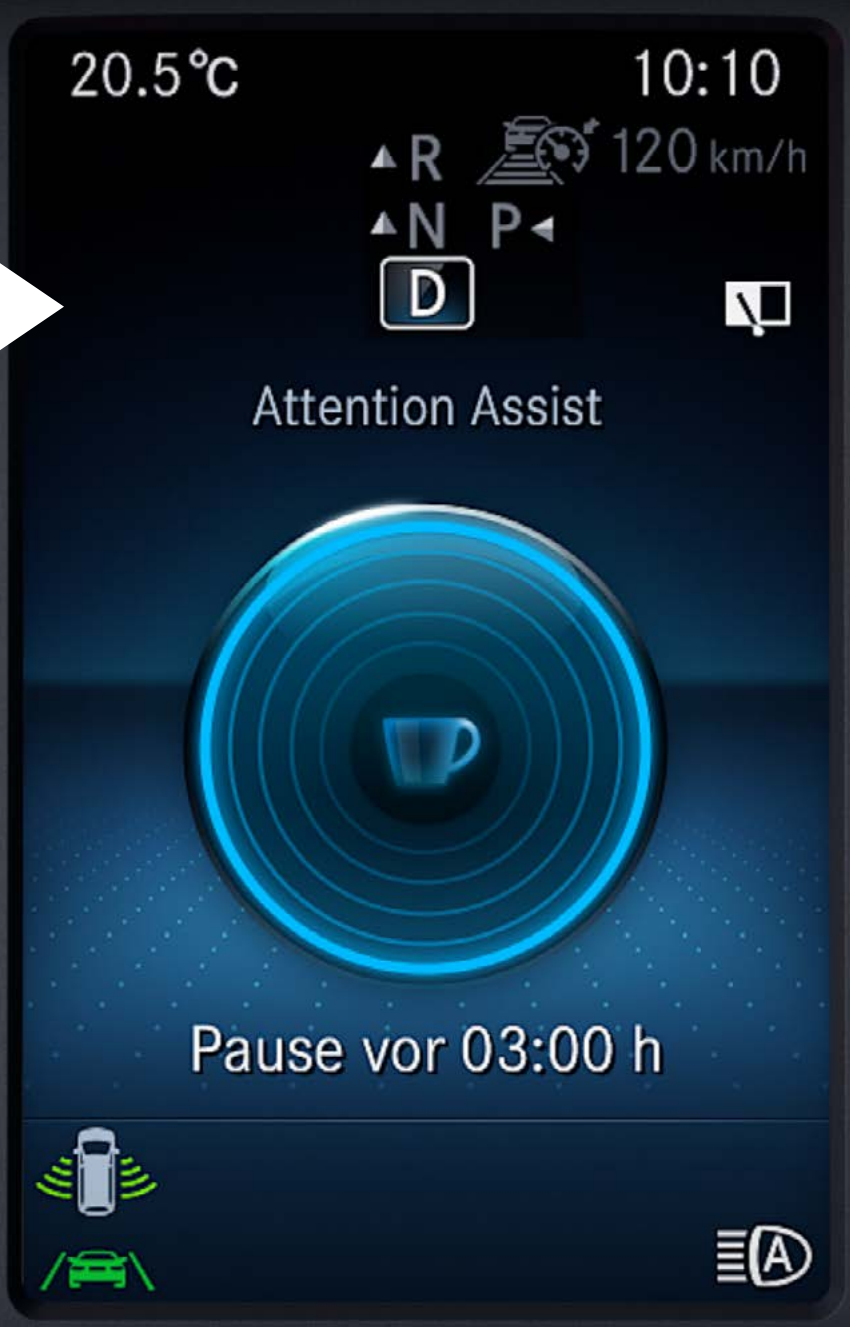

Crosswind Assist

When strong gusts hit from the side, Crosswind Assist automatically detects the impact and adjusts braking on individual wheels, helping you maintain stability and control.

Attention Assist

Using sensors to monitor your driving patterns, Attention Assist identifies signs of fatigue, such as minor steering corrections and provides visual and audible alerts to remind you to take a break.

Traffic Sign Assist

Traffic Sign Assist in the eSprinter detects and displays road signs, helping drivers stay informed of speed limits and other important regulations.

Active Lane Keeping Assist

Using onboard cameras and sensors, Active Lane Keeping Assist continuously monitors lane markings and gently guides the vehicle back on course if you begin to drift without signalling.

Lane Keeping Assist

With Lane Keeping Assist, the eSprinter actively supports your focus on the road. This intelligent feature uses cameras to monitor lane markings and detects any ended drift from your lane.

Active Distance Assist DISTRONIC

This advanced adaptive cruise control system continuously monitors the road ahead, adjusting speed to match traffic flow, and even bringing the vehicle to a stop if necessary.

Reversing Camera with Rear-View Mirror Display

The Rear-View Mirror Display, provides a clear, real-time view of what's behind your vehicle. The camera feed is conveniently displayed within the rear-view mirror, making reversing, parking and navigating tight spaces easier and safer.

Charging Capabilities

The Mercedes-Benz eSprinter offers versatile charging options, with a 7.4 kW AC charger for standard charging and an 80 kW DC fast charger for quick, efficient recharging.

81 kWh High-Voltage Battery

With impressive range capabilities and charge speed this advanced battery ensures you can tackle long-distance drives and urban routes with ease, all while reducing your carbon footprint.

Electric Parking Brake

Activated with the simple press of a button, this system automatically engages the parking brake when the vehicle is stationary, providing reliable hold and peace of mind.

Heated Exterior Mirrors

Whether you're dealing with frost, snow or rain, these mirrors quickly defrost and clear, allowing you to maintain a clear view of the road and surrounding traffic.

113 kWh High-Voltage Battery

With more energy capacity, this advanced battery allows you to cover longer distances between charges, ensuring your fleet remains productive and efficient throughout the day.

Time is of the essence.

11 kW AC charging: The AC charging system lets you charge your vehicle quickly and easily at up to 11 kW (3-phase). This enables charging at wall boxes and a variety of public charging stations.

115 kW DC charging: Charge your vehicle's high-voltage battery exceptionally quickly with up to 115 kW – and extend the vehicle range without a long wait.

Charge ahead.

Receive expert support from Mercedes-Benz with a personalised home or fleet charging assessment. Whether you're looking to power a single vehicle or an entire fleet, we offer tailored solutions to keep your operations running smoothly. We can even assist in designing and building a charging depot, ensuring your fleet stays charged and ready to deliver.

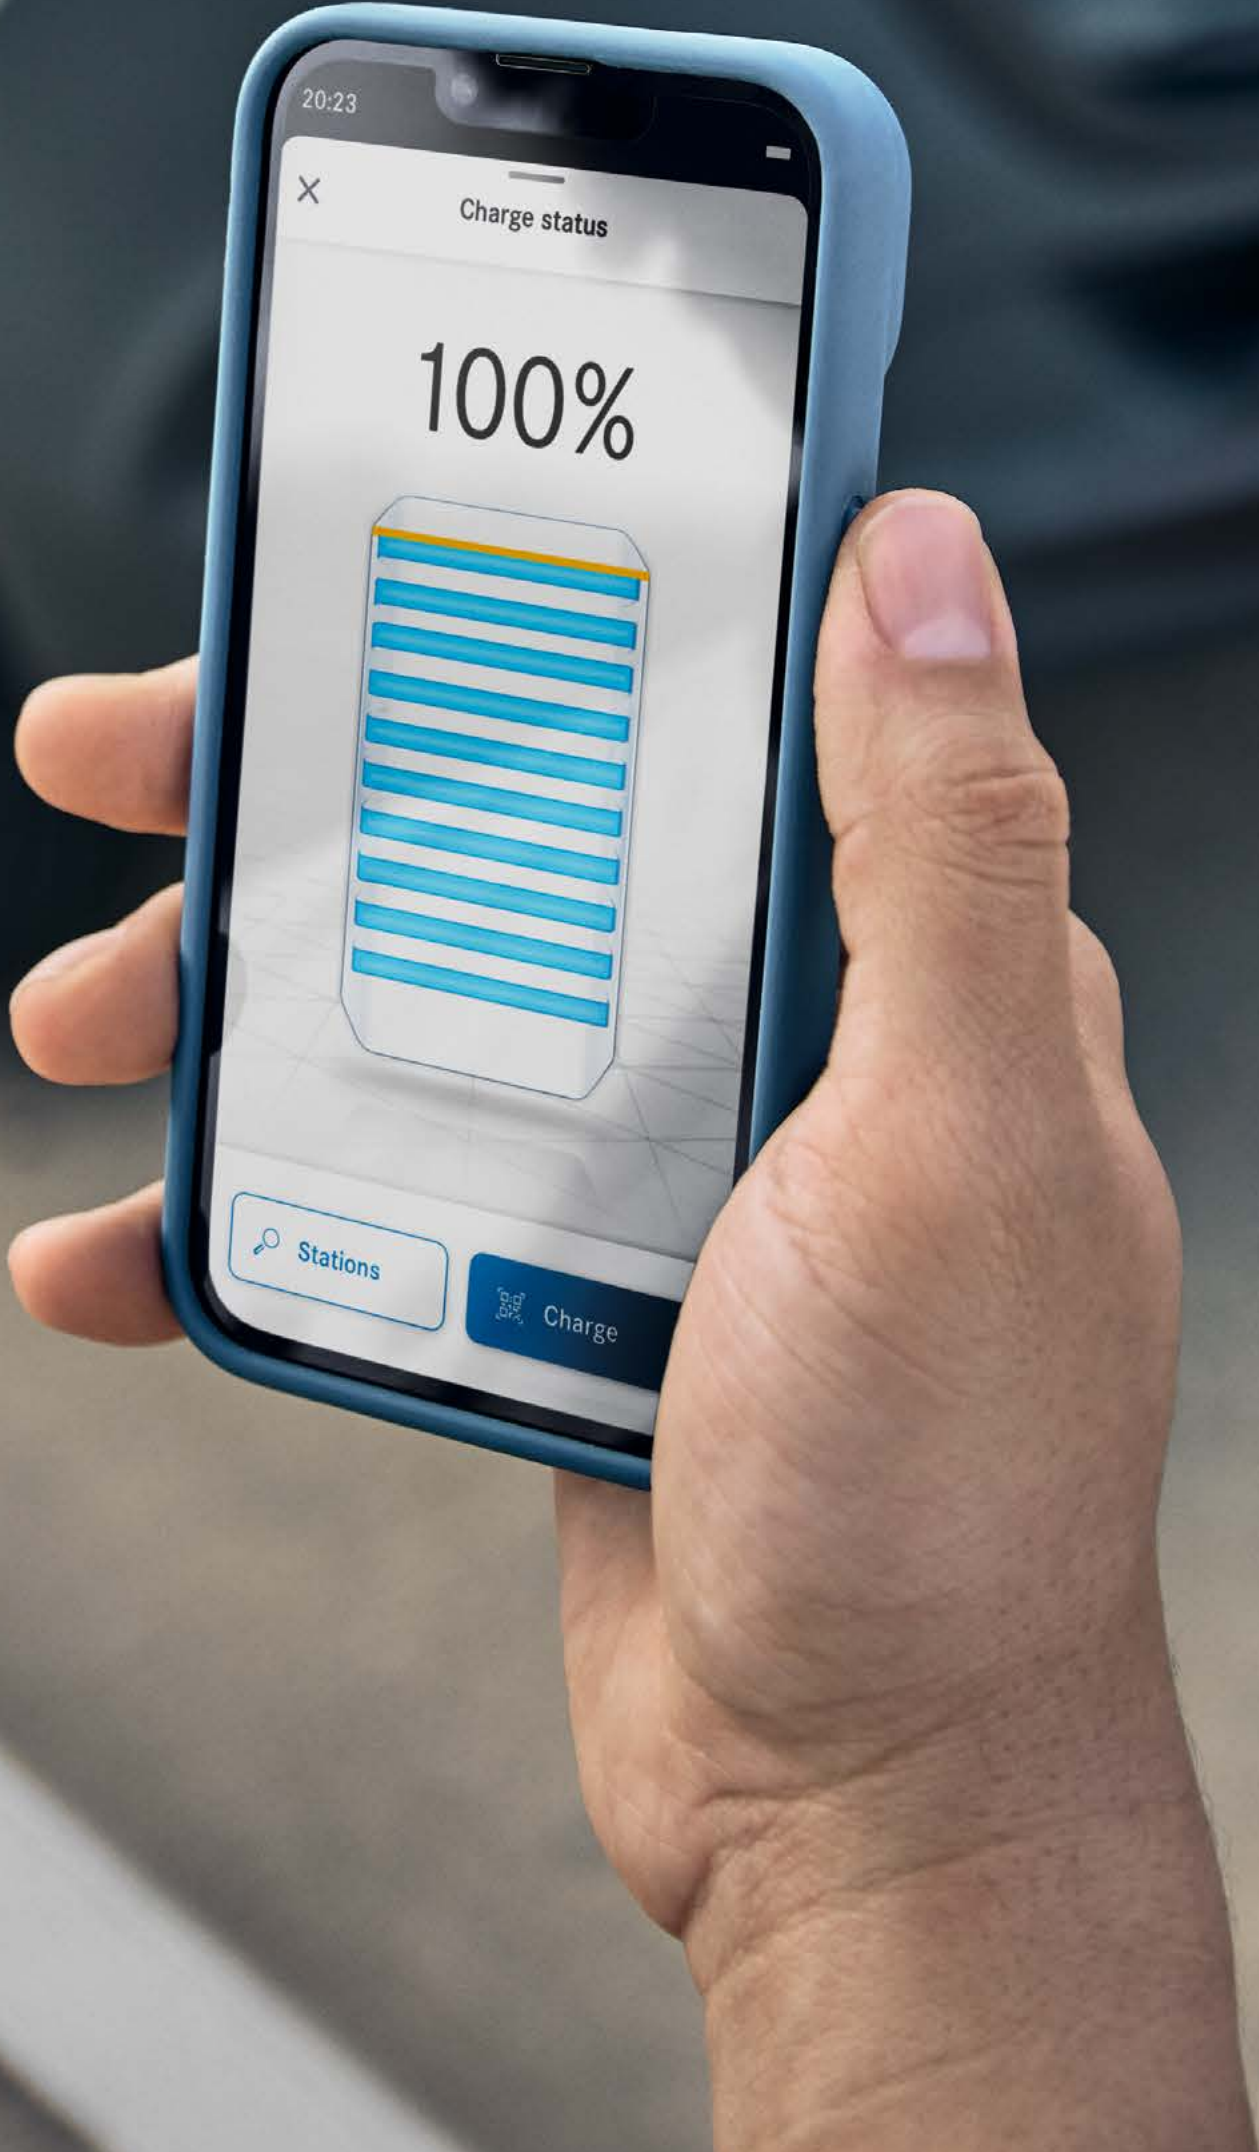

Lead the charge with an eFleet.

Building an eSprinter fleet not only enhances your operational efficiency but also positions your company as a leader in sustainability. By choosing electric power, you reduce your carbon footprint, promote green business practices and contribute to cleaner, more sustainable urban environments.

Stay connected, wherever you go.

Discover a seamless, connected experience, putting complete control of your Van at your fingertips. With the app, you can monitor your eSprinter battery status, track its range, and even pre-condition the cabin before you start your day.

eServiceCare Sprinter.

All Sprinter Vehicles come with a standard 2-year unlimited kilometer Manufacturer’s Warranty, an 8-year / 160 000km battery certificate and a 1-year / 40 000km service interval. In addition, we offer customers the option to purchase a ServiceCare Complete full maintenance plan:

1. ServiceCare eComplete

An all-inclusive maintenance package, which covers all the repairs and servicing requirements of the vehicle for the stipulated km reading and / or period of the contract.

The contract covers any repairs required during the routine operation of the vehicle, but does not cater for any components damaged due to external influences or acts of nature. For full pricing and more details kindly contact your nearest dealer.

The contract includes:

- All the repairs and servicing requirements of the vehicle
- The cost of all repairs which become necessary as a result of normal wear and tear
- Roadside Assistance

eSprinter ServiceCare Complete options starting from R 54,682.50 (Incl Vat)

Options Available (Whichever comes first):

5 Years / 100 000km
5 Years / 150 000km
5 Years / 200 000km

2. ServiceCare eComplete +

The “eComplete+” contract applies to eSprinters with battery sizes E7V HIGH-VOLTAGE BATTERY (56 KWH), E8V HIGH-VOLTAGE BATTERY (81KWH) and E9V HIGH-VOLTAGE BATTERY (113 KWH).

An all-inclusive maintenance package, which covers all the repairs and servicing requirements of the vehicle for the stipulated km reading and / or period of the contract. The contract covers any repairs required during the routine operation of the vehicle, but does not cater for any components damaged due to external influences or acts of nature. For full pricing and more details kindly contact your nearest dealer.

The contract includes:

- All items covered under the ServiceCare eComplete
- Additionally, the battery certificate is extended to 8 years / 300 000km (Which ever comes first)

eSprinter ServiceCare Complete options starting from R 84,640.00 (Incl Vat)

Options Available (Whichever comes first):

5 Years / 100 000kms
5 Years / 150 000kms
5 Years / 200 000kms

The full terms and conditions can be found on the website.

Success never rests.

Experience the advantage of owning a Mercedes-Benz Van. Accelerate and elevate your business with a promise of more than just automotive excellence.
